

OmegaDry® Cranberry

Characteristics

OmegaDry® Cranberry is a cold press extruded cranberry seed oil γ -cyclodextrin inclusion complex from Wacker Chemical Corp. Cranberry Oil naturally contains tocopherols, tocotrienols, phytosterols and lecithin.

Special characteristics

Chemical name: Cranberry Seed Oil γ-

cyclodextrin inclusion complex

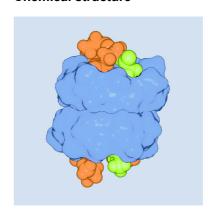

Appearance: Free flowing white to cream-

white colored powder

Bulk density: 0.3 – 0.5 g/cm³
Particle size: 100 micron max.

Nutritional value: Approx. 27.5 KJ/g (6.5 kcal/g)
Dispersibility: Disperses easily in water

Chemical structure

Storage

OmegaDry[®] Cranberry is slightly sensitive to air, heat, light and humidity.

OmegaDry[®] Cranberry has a shelf life of at least six months from the date on the delivery note in sealed, unopened original containers under dry conditions at < 15°C (60°F).

Opened containers should be used the same day. If the material is kept beyond the shelf life, it is not necessarily unusable, but a quality control should be performed on the properties relevant to the application.

Package

Units of 10 kg, 50 kg This product has been packaged under nitrogenatmosphere.

Safety information

Detailed safety information is contained in each material safety data sheet, which can be obtained from our sales offices.

Product data

Floudict data	
Parameter	Value
Oleic Acid (18:1)	7 % min.
Linoleic Acid (18:2)	13 % min.
Linolenic Acid (18:3)	13 % min.
Moisture:	10% max.
Microorganisms:	3000 CFU/g max.
E. coli/Salmonella	0 in 10 g

These figures are only intended as a guide, and should not be used in preparing specifications.

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the products for a particular purpose.

The management system has been certified according to DIN EN ISO 9001 and DIN EN ISO 14001
